Dear Mr. Sacks and Weston,

I am writing to you to extend my extreme appreciation and gratitude for your partner Mr. Scott Diamond's representation in my fall accident.

Mr. Diamond's first meeting with me approximately two plus years ago was extremely professional. The meeting was to collect data regarding my case, and determine if in fact I have a there legal basis for a lawsuit. At that time Mr. Diamond, indicated he would be willing to move forward with my case and determined the approximate length of time this would take to conclude, the effort required on my behalf (doctors examines and depositions etc.) and the approximate settlement range for this type of case. He further indicated that he felt my case was a trial case and he is a trial lawyer. At the conclusion of this meeting I signed a contract with Mr. Diamond.

Throughout the two plus years Mr. Diamond and his staff, especially Ms. Patricia and Ms. Karen Brosius displayed absolute dedication and professionalism along with everyone I encountered at your firm. Mr. Diamond's representation of me during our mediation was outstanding which resulted in a settlement I was extremely happy with as it reflected what Mr. Diamond projected in our first meeting.

In my many years in business I have employed many law firms; none have come close to matching the level of dedication and professionalism I encountered with your Law Firm. Please extend my great appreciation and thanks to Mr. Diamond and your staff!

Sincerely,

William Mathers
